Czech producer of carts, furniture and accessories
for healthcare, social services and other areas

Doctors' and nurses' offices

Let's start in the doctor's office or that of nurses. Our multipurpose furniture in mobile or stationary design with modular interchangeable baskets, different types of drawers with adjustable dividers and accessories in a whole range of colors and types is just the right thing for you. We offer cabinets, carts, racks, shelves, stainless steel work tables, corner components, stainless steel sinks, dustproof cabinets of various heights and colors with transparent or solid doors for hanging portable modular baskets with the possibility of locking, in different color combinations of drawers and doors, so that you like them and at the same time you can distinguish the individual operations, as you wish.

Operating theaters

We get to the operating theaters, where you will certainly use our special carts, furniture and accessories. We have available anesthesiology, resuscitation carts, assembled and equipped with various customized accessories as needed, e.g. glove holder, folding table, container for used needles, etc. We also offer open carts for instruments, instrumentation carts with rotating desks with hydraulic or pneumatic lift, variable infusion stands and holders, special holders and carts for infectious waste equipped with a stainless steel container or bucket, stainless steel wall shelves, holders and bars for masks and X-ray aprons as well as baby carriages.

Laboratories and pharmacies

Other areas in healthcare and social facilities are often various laboratories and pharmacies, which we can also equip with many types of stainless steel racks, hanging walls, work tables, tables with sinks, movable and fixed racks, cupboards and cabinets, with using of a hanging system for various types and dimensions of modular baskets, including the placing of descriptive labels and options of various color combinations. For easy and fast transport and delivery of medicines, samples and other material, you can again use various types of our medicine carts with a number of compatible and interchangeable accessories.

This flyer serves as an illustrative example and a cross-section of our offer of multifunctional carts, furniture and accessories with which you can equip your entire medical or social facility.

Transport of medicines and material

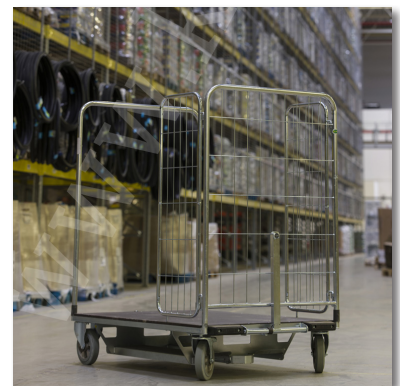

You can fill up the carts from the nurse's or doctor's office with the needed material and easily move them to where they are needed. All carts have wide comfortable handles and plastic wheels with brakes and bumpers. For transport of various material, medicines, tools, documentation etc. we offer closed or open types of carts, with cabinets, drawers, roller shutters or combined, with the possibility of a central locking and their various combinations. The carts can be equipped with various accessories according to current needs, stainless steel work top, extended chassis for better stability when pulling out the drawers. You can choose your own color combination. We are able to assemble special medicine, dressing carts or the carts for performing rounds. They can be equipped with everything necessary according to your requirements.

Dining premises

All medical and social facilities also have their own catering premises, such as dining rooms, kitchens, food preparation departments, buffets, etc., for which we have prepared various types and sizes of open carts with stainless steel tops and wire baskets, stainless steel racks, hanging walls, stainless steel tables, stainless steel tables with sinks, shelves and racks of various types and sizes of baskets. We can also assemble atypical carts for baking, food and other trays. You can deliver the food directly to the patients' beds using our carts with a side desk of adjustable height.

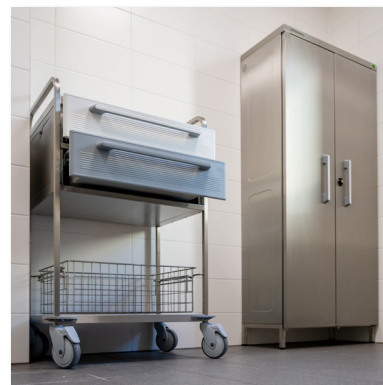

Technical premises - warehouses, laundries, cleaning

An indispensable part of medical and social facilities is, of course, cleaning, collection of various types of waste and laundry, various handling of them as well as their storage. For these facilities, we primarily offer an abundance of cleaning and combined carts including all accessories, handling carts with supplemented holders for plastic or cloth bags, clothes rails, mobile lockable cages, stands and carts for laundry bags that can be used separately or combined variably. We also offer various types of cabinets, hanging walls and shelves. For material of smaller size all the advantages of module system can be used again.

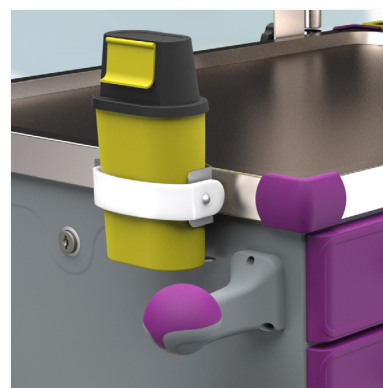

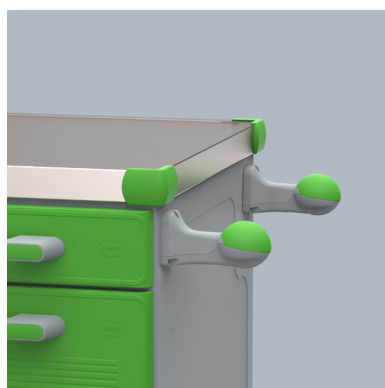

This flyer serves as an illustrative example and a cross-section of our offer of multifunctional carts, furniture and accessories with which you can equip your entire medical or social facility.

Atypical production

And that's still not all. If you did not choose from our offer, or in case you need to supplement our products or assemble something special made to order, contact us. We are able to assemble cabinets, work tables, tables with sinks, corner components, racks, shelves, holders, mobile cabinets, special appliance carts, carts for dining rooms and kitchens (see above) customized according to your requirements and needs. We are constantly innovating and supplementing our products driven by knowledge gained from various operations, and each new request is a challenge for us, so you might become our next inspiration.

Constantly innovating

In line with modern trends, we have extended the possibility of colour individualisation of medical carts by means of optional colour elements. In addition to the colours of the drawer faces and drawer handle covers, it is now also possible to choose the colour of the protective corners of the top plate of the cart or the folding table, as well as the colour of the bumpers on the BASIC and PROFIL carts. We have also innovated the push handle of the carts to ensure better manoeuvrability and ergonomics. Our cart accessories have also been innovated. An example is the new ampoule breaker with a holder for attachment to the cart.
